LAND & SUBDIVISION VALUATION & ADVISORY SERVICES

NVC's Land and Subdivision Group has been involved in a multitude of complex land development projects nationwide, from small single-family subdivisions to large mixed-use projects.

The company's extensive experience afforded us the opportunity to value Grandview Yard, a 50-acre urban redevelopment in Cincinnati, as well as the Woodlands, a 1,000-acre master-planned community in Houston. Proposed land projects have included attached and detached finished lots, new urbanism, infill redevelopment, mixed-use and Transit Oriented Development sites.

NVC's Subdivision team has performed work for banks, life insurance companies and other financial institutions, and has experience in appraising a wide spectrum of land development projects in a variety of markets around the country.
