

# MULTIFAMILY VALUATION & ADVISORY SERVICES

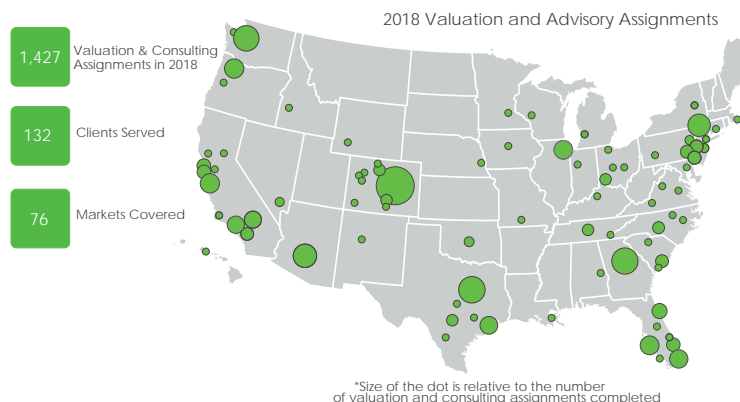

NVC has completed thousands of multifamily valuation and advisory assignments throughout the United States. Our expertise in this property type is extensive, with assignments ranging in scope from single building properties to large portfolios with assets spread throughout multiple states and markets.

Our multifamily valuation team possesses in-depth knowledge and experience with Freddie Mac and Fannie Mae appraisals, and we are designated by CHFA as approved appraisers/analysts. In addition, our firm is very familiar with the affordable housing market, having completed a significant number of assignments that include Low Income Housing Tax Credits (LIHTC), bond financing and subsidized Housing Assistance Payments (HAP) contracts. In addition, NVC has a proprietary database that contains rental information and operating statements on thousands of multifamily properties nationwide. Coupled with access to a wide array of nationally recognized market data resources (including Axiometrics) and a dedicated research staff, our team has all of the tools necessary to focus on national, regional and local market trends and transactions.

For more information on our multifamily and other valuation groups, please visit [www.nvcinc.com](http://www.nvcinc.com).
